***DETAILED ACTION***

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-10, drawn to a method of performing a medical procedure, classified in class 607, subclass 6.
  - II. Claims 11-16, drawn to a method of performing a medical procedure on a vessel, classified in class 607, subclass 3.
  - III. Claims 17-20, drawn to a method of harvesting a vessel, classified in class 607, subclass 7.

The inventions are distinct, each from the other because of the following reasons:

Inventions I., II., and III. are different methods and are therefore individual and distinct.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

The Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

The Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
